

TechStore - Warranty Policy

Most TechStore products include a 12-month limited warranty unless a different warranty period is stated on the product page.

The warranty covers manufacturing defects under normal use.

The warranty does not normally cover accidental damage, liquid damage, unauthorized repairs, cosmetic damage, or normal wear and tear.

Customers should provide the order ID and a description of the issue when requesting warranty support.

TechStore may repair, replace, or otherwise resolve an eligible warranty claim according to the product and the nature of the issue.
